These standards were approved by Council at their meeting on 28 March 2018 and were updated on 8 October 2018 to include the regulation of pre-registration nursing associate programmes.

These standards were newly published on 25 April 2023 to align with the publication of the updated standards for education and training that were approved at the Council meeting on 25 January 2023.

About our standards

Our standards for education and training include the Standards framework for nursing¹ and midwifery education, Standards for student supervision and assessment, and programme standards specific to each approved programme.

Our [standards](#) for education and training are set out in three parts:

[Part 1: Standards framework for nursing and midwifery education](#)

[Part 2: Standards for student supervision and assessment](#)

Part 3: Programme standards:

- [Standards for pre-registration nursing programmes](#)
- [Standards for pre-registration midwifery programmes](#)
- [Standards for pre-registration nursing associate programmes](#)
- [Standards for prescribing programmes](#)
- [Standards for post-registration programmes: programmes leading to specialist community public health nurse qualifications and programmes leading to community nursing specialist practice qualifications](#)
- [Standards for return to practice programmes](#)

Supporting information for our [Standards for student supervision and assessment](#) is on our [website](#).

These standards help nursing and midwifery [students](#) achieve NMC proficiencies and programme outcomes. All nursing and midwifery professionals must practise in line with the requirements of [the Code](#), the professional standards of practice, values and behaviours that nurses, midwives and nursing associates are expected to uphold.

¹ We have used the phrase 'nursing' in this document to apply to the work of nurses and nursing associates. Nursing associates are a distinct profession in England with their own part of our register, but they are part of the nursing team.

Introduction

Our Standards for student supervision and assessment set out our expectations for the learning, support and supervision of students in the practice environment. They also set out how students are assessed for theory and practice.

Article 15(1) of the [Nursing and Midwifery Order 2001](#) ([‘the Order’](#)) requires the Council to establish standards for education and training which are necessary to provide the standards of proficiency for admission to the register, as required by Article 5(2) of the Order. The [Standards for student supervision and assessment](#) are established under the provision of Article 15(1) of the Order.

These standards aim to provide Approved Education Institutions (AEIs) and practice learning partners with the flexibility to de12 0 0 (actic)15.1 In i3 Ed8Eera

The [Standards for student supervision and assessment](#) apply to all NMC approved programmes and should be read with the NMC [Standards framework for nursing and midwifery education](#) and the programme standards specific to the programme that is being delivered. There must be compliance with all these standards for an education institution to be approved and run NMC approved programmes.

Our [Standards for student supervision and assessment](#) are set out under the following three headings:

E ffective practice learning (section 1)

These standards describe what needs to be in place to deliver safe and effective learning experiences for nursing and midwifery students in practice.

Supervision of students (sections 2 to 5)

Here we describe the principles of student supervision in the practice environment, and the role of the practice supervisor.

Assessment of students and confirmation of proficiency

Effective practice learning

All students are provided with safe, effective and inclusive learning experiences. Each learning environment has the governance and resources needed to deliver education and training. Students actively participate in their own education, learning from a range of people across a variety of settings.

1. Organisation of practice learning

Approved education institutions, together with practice learning partners, must ensure that:

- 1.1 practice learning complies with the NMC [Standards framework for nursing and midwifery education](#)
- 1.2 practice learning complies with specific programme standards
- 1.3 practice learning is designed to meet proficiencies and outcomes relevant to the programme
- 1.4 there are suitable systems, processes, resources and individuals in place to ensure safe and effective coordination of learning within practice learning environments
- 1.5 there is a nominated person for each practice setting to actively support students and address student concerns
- 1.6 students are made aware of the support and opportunities available to them within all learning environments
- 1.7 students are empowered to be proactive and to take responsibility for their learning
- 1.8 students have opportunities to learn from a range of relevant people in practice learning environments, including users of services, registered and non-registered individuals, and other students as appropriate
- 1.9 learning experiences are inclusive and support the diverse needs of individual students
- 1.10 learning experiences are tailored to the student's stage of learning, proficiencies and programme outcomes, and
- 1.11 all nurses, midwives and nursing associates contribute to practice learning in accordance with [the Code](#).

Supervision of students

Practice supervision enables students to learn and safely achieve proficiency and autonomy in their professional role. All NMC registered nurses, midwives and nursing associates are capable of supervising students, serving as role models for safe and effective practice. Students may be supervised by other registered health and social care professionals.

2. Expectations of practice supervision

Approved education institutions, together with practice learning partners, must ensure that:

- 2.1 all students on an NMC approved programme are supervised while learning in practice
- 2.2 there is support and oversight of practice supervision to ensure safe and effective learning
- 2.3 the level of supervision provided to students reflects their learning needs and stage of learning
- 2.4 practice supervision ensures safe and effective learning experiences that uphold public protection and the safety of people
- 2.5 there is sufficient coordination and continuity of support and supervision of students to ensure safe and effective learning experiences
- 2.6 practice supervision facilitates independent learning, and
- 2.7 all students on an NMC approved programme are supervised in practice by NMC registered nurses, midwives, nursing associates, and other registered health and social care professionals.

Assessment of students and confirmation of proficiency

Student assessments are evidence based, robust and objective. Assessments and confirmation of proficiency are based on an understanding of student achievements across theory and practice. Assessments and confirmation of proficiency are timely, providing assurance of student achievements and competence.

6. Assessor roles

Approved education institutions, together with practice learning partners, must ensure that:

- 6.1 all students on an NMC approved programme are assigned to a different nominated academic assessor for each part of the education programme
- 6.2 all students on an NMC approved programme are assigned to a nominated practice assessor for a practice placement or a series of practice placements, in line with local and national policies
- 6.3 nursing students are assigned to practice and academic assessors who are NMC registered nurses with appropriate equivalent experience for the student's field of practice
- 6.4 midwifery students are assigned to practice and academic assessors who are NMC registered midwives
- 6.5 specialist community public health nurse (SCPHN) students are assigned to practice and academic assessors who are NMC registered SCPHNs with appropriate equivalent experience for the student's field of practice
- 6.6 nursing associate students are assigned to practice and academic assessors who are either an NMC registered nursing associate or an NMC registered nurse
- 6.7 students studying for an NMC approved post-registration qualification are assigned to practice and academic assessors in accordance with relevant programme standards

- 6.8 practice and academic assessors receive ongoing support to fulfil their roles, and
- 6.9 practice and academic assessors are expected to appropriately raise and respond to concerns regarding student conduct, competence and achievement, and are supported in doing so.

7. Practice assessors: responsibilities

Approved education institutions, together with practice learning partners, must ensure that:

- 7.1 practice assessors conduct assessments to confirm student achievement of proficiencies and programme outcomes for practice learning
- 7.2 assessment decisions by practice assessors are informed by feedback sought and received from practice supervisors
- 7.3 practice assessors make and record objective, evidenced-based assessments on conduct, proficiency and achievement, drawing on student records, direct observations, student self-reflection, and other resources
- 7.4 practice assessors maintain current knowledge and expertise relevant for the proficiencies and programme outcomes they are assessing
- 7.5 a nominated practice assessor works in partnership with the nominated academic assessor to evaluate and recommend the student for progression for each part of the programme, in line with programme standards and local and national policies
- 7.6 there are sufficient opportunities for the practice assessor to periodically observe the student across environments in order to inform decisions for assessment and progression
- 7.7 there are sufficient opportunities for the practice assessor to gather and coordinate feedback from practice supervisors, any other practice assessors, and relevant people, in order to be assured about their decisions for assessment and progression
- 7.8 practice assessors have an understanding of the student's learning and achievement in theory
- 7.9 communication and collaboration between practice and academic assessors is scheduled for relevant points in programme structure and student progression

- 7.10** practice assessors are not simultaneously the practice supervisor and academic assessor for the same student, and
- 7.11** practice assessors for students on NMC approved prescribing programmes support learning in line with the NMC [Standards for prescribing programmes](#).

8. Practice assessors: preparation

Approved education institutions, together with practice learning partners, must ensure that practice assessors:

- 8.1** undertake preparation or evidence prior learning and experience that enables them to demonstrate achievement of the following minimum outcomes:
 - 8.1.1** interpersonal communication skills, relevant to student learning and assessment
 - 8.1.2** conducting objective, evidence based assessments of students
 - 8.1.3** providing constructive feedback to facilitate professional development in others, and knowledge of the assessment process and their role within it
- 8.2** receive ongoing support and training to reflect and develop in their role
- 8.3** continue to proactively develop their professional practice and knowledge in order to fulfil their role, and
- 8.4** have an understanding of the proficiencies and programme outcomes that the student they assess is aiming to achieve.

9. Academic assessors: responsibilities

Approved education institutions, together with practice learning partners, must ensure that:

- 9.1 academic assessors collate and confirm student achievement of proficiencies and programme outcomes in the academic environment for each part of the programme
- 9.2 academic assessors make and record objective, evidence-based decisions on conduct, proficiency and achievement, and recommendations for progression, drawing on student records and other resources
- 9.3 academic assessors maintain current knowledge and expertise relevant for the proficiencies and programme outcomes they are assessing and confirming
- 9.4 the nominated academic assessor works in partnership with a nominated practice assessor to evaluate and recommend the student for progression for each part of the programme, in line with programme standards and local and national policies
- 9.5 academic assessors have an understanding of the student's learning and achievement in practice
- 9.6 communication and collaboration between academic and practice assessors is scheduled for relevant points in programme structure and student progression, and
- 9.7 academic assessors are not simultaneously the practice supervisor and practice assessor for the same student.

10. Academic assessors: preparation

Approved education institutions, together with practice learning partners, must ensure that academic assessors:

10.1 are working towards or hold relevant qualifications as required by their academic institution and local and national policies

10.2 demonstrate that they have achieved the following minimum outcomes:

10.2.1 interpersonal communication skills, relevant to student learning

Glossary

Approved Education Institutions

(AEIs): the status awarded by the NMC to an institution, or part of an institution, or combination of institutions that works in partnership with practice placement and work placed learning providers. AEIs will have provided us with assurance that they are accountable and capable of delivering NMC approved education programmes.

Co-produced: when an individual influences the support and services received, or when groups of people get together to influence the way that services are designed, commissioned and delivered, acknowledging that people who use social care and health services (and their families) have knowledge and experience that can be used to help make services better. Co-production is one of the principles of the Care Act 2014.

Educators: in the context of the NMC standards for education and training educators are those who deliver, support, supervise and assess theory, practice and/or work placed learning.

Equalities and human rights

legislation: prohibits unlawful discrimination on the basis of age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation and other
